PROFESSIONAL SUMMARY

Results-driven Artificial Intelligence and Data Science engineering student with hands-on experience in Python, Java, SQL, React, and machine learning. Experienced in developing web applications and data-driven solutions through academic and internship projects, with practical exposure to Git, GitHub, MySQL, MongoDB, and data analysis tools. Strong problem-solving skills and a solid foundation in software development, machine learning, DBMS, and computer networks, with a keen interest in building scalable and impactful technology solutions.

SKILLS

- **Programming Languages:** Python, Java, SQL
- **Data Science & Machine Learning:** NumPy, Pandas, Matplotlib, Scikit-learn, Data Analysis, Machine Learning
- **Web Development:** HTML, CSS, JavaScript, React.js, Vite, tailwind
- **Databases:** MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, VS Code, Power BI, Tableau
- **Core Computer Science:** DSA, OOP, DBMS, Computer Networks, Operating Systems

WORK EXPERIENCE

Oasis Infobyte Pvt. Ltd

Pune, India

Web Development & Design Intern

June 2026 – Present

- Developed responsive web pages and interactive UI components using HTML, CSS, and JavaScript.
- Designed modern landing pages with a focus on responsive design, usability, and clean UI.
- Used Git/GitHub for version control and deployed completed projects for live access.
- Developed and deployed responsive Landing Page, Portfolio Website, Calculator

AIML Core

Pune, India

Front-End Developer Intern

July 2026 – Nov 2025

- Built and refined interactive frontend interfaces using React.js with a focus on clean and intuitive UI
- Developed reusable components to maintain consistency and improve frontend code organization.
- Enhanced user experience through intuitive navigation, responsive design, and clean interface implementation
- Translated functional requirements into user-friendly interfaces with emphasis on navigation and usability.

PROJECTS

Learning management system

Tech Stack: React.js, TypeScript, Tailwind CSS, JavaScript, HTML5, CSS3, React Router, Git/GitHub

- Developed a role-based LMS with dedicated dashboards for **Student, Teacher, Admin, and Super Admin**.
- Implemented modules for **courses, assignments, attendance, calendar, certificates, and academic management**
- Built reusable React components and responsive interfaces with role-specific navigation and workflows.
- Integrated mock APIs and structured the frontend for maintainability and scalability.

Smart clinic queue

Tech Stack: React.js, TypeScript, Tailwind CSS, JavaScript, HTML5, CSS3, React Router,, Git/GitHub

- Developed a responsive clinic dashboard for **appointment management and patient queue tracking**
- Implemented modules for **doctor management, appointment booking, queue tracking, notifications, reports, and user profiles.**
- Created reusable React components and responsive UI to provide a consistent and user-friendly experience
- Implemented client-side routing using **React Router** and designed a clean, responsive UI for different screen sizes

EDUCATION

Bachelor of Engineering (B.E.) — Artificial Intelligence & Data Science

Pravara Rural Engineering College, Loni

2024 - 2028

Languages: English, Hindi, Marathi
